

ENJOY YOUR OASIS ON YOUR TIME

LIFE DESIGNED FOR THE OUTDOORS

*Maximize the comfort and
functionality of your outdoor
living space year round.*

Whether merrily entertaining or in quiet sanctuary, the Equinox® Louvered Roof enriches your lifestyle. The louvers move at your command for full sun, filtered shade, or solid rain protection, allowing you to bring your living space outdoors. No matter what the occasion, live life uninterrupted.

GET-TOGETHERS MADE BETTER

Gather friends and family without the worry of weather.

The Equinox® Louvered Roof system has been designed for homeowners who have a passion for entertaining. The weather need not be a factor in planning an event or enjoying the outdoors on a whim. The Equinox® Louvered Roof blocks the sun's powerful rays or unexpected rain showers. Your guests and family will always be protected no matter what the occasion, a gala, a family night or an intimate dinner for two.

PURPOSE ALIGNS WITH STYLE

A private room with a view

An Equinox Louvered Roof system is ideal for many applications, including cozy dining spaces that allow for fabulous entertaining.

Design Details: louvers in sandstone with beams columns in bronze

“I was on the search for awnings that could protect company. We loved the design and versatility of the Equinox system and it’s ability to activate with a wireless remote connected to a solar panel motor. We also really appreciate the low maintenance aspect. The Equinox system gave us what we needed. It allows us to enjoy our patio in every kind of weather without rushing dinner due to surprise showers.”

- Homeowner, Georgia

Wide open rooftop spaces

Equinox Louvered Roof allows for dual systems. Keep the whole family happy with total flexibility of sunlight and shade coverage.

Design Details: louvers, columns and beams in sandstone

“When I saw the Equinox system, I decided it would be a perfect fit, because we can adjust and filter the light in summer and winter. Having the louvers, the air circulates all the time. It’s always a peaceful and refreshing place to sit. The Equinox system was the best investment I have put into my home, the one that as the most value to me.”

- Homeowner, Arizona

Privacy with comfort

Not only ideal for ceiling applications, Equinox Louvered Roof is also ideal for side wall ventilation and lighting.

Design Details: louvers in white and columns in custom green

"Equinox has allowed us to add another room to our house, another living area. We can adjust the louvers to direct the light and breeze, or allow complete coverage when it rains. It has given us options that we would not have had otherwise. We have been just delighted with the product and what it's given to us, allowing us to expand our space and enjoy the outdoors."

Homeowner, California

Form with function

An Equinox Louvered Roof system creates a year round open air living space, providing additional get-a-way space when needed.

Design Details: louvers in sandstone and beams in bronze

"We love to entertain. Our patio was too hot in the summer. We decided to get an arbor. My wife liked the open arbor and I liked the closed type. We saw Equinox and thought it would be the best of both worlds. It's the best thing we ever did. It made it so much cooler; but ever better, we can enjoy the outdoors when it's pouring down rain. It's so beautiful. We really enjoy this system."

Homeowner, Florida

LIFE DESIGNED FOR "OOHS" AND "AAHS"

Engineered for unparalleled control.

Equinox Louvered Roof is manufactured with quality elements, precision engineering, and aesthetic options to fulfill your dreams of the ultimate outdoor space. Our patio system is strong and conforms to nearly all wind and snow load requirements. The louvers are versatile to integrate flawlessly into any architectural style, such as gable roofs, bay windows, doors, or angled roofs and walls.

FUNCTIONALITY BONDS WITH PERFORMANCE

Precision Engineered Motor and Louvers

A complex system of rotating gears drives the louvers into the perfect position for ventilation, sun blocking or rainfall protection. Designed with extruded aluminum and stainless steel components the system is strong, lightweight and durable. The low maintenance louvers can be positioned anywhere within their 160° range of motion for the exact amount of protection or ventilation desired.

Remote Control

With the touch of a button, a convenient remote control easily rotates the patio system louvers from fully opened to a solid roof in a matter of moments. While enjoying quiet days lounging outside, you can adjust your patio's louvers to protect your eyes and skin when the sun is at its full height.

Solar Battery

Drawing, storing, and converting the sun's energy, the battery cell powers the motor that rotate the louvers. Combined with the remote control, the louvered roof needs no wiring and uses no power from the home. It is both renewable and sustainable. The Equinox Louvered Roof solar battery is securely mounted in a discreet and sunny corner of your patio. Non-solar battery pack systems are also available.

Built-in Gutters

One of the more ingenious features of the Equinox Louvered Roof system is its built-in gutter system. At installation, the louvered roof is precisely angled to ensure that rainwater flows into the gutters along the perimeter of the system. When coupled with downspouts, the water flows down and out away from your home, keeping all under the roof dry and comfortable.

10-Year Warranty

Equinox Louvered Roof systems are made to last. Equinox Louvered Roof is made from all metal components providing greater durability than traditional patio covers. Unlike plastic or fabric, our metal components will perform in both heat and rain environments. We are committed to bringing you products of the highest quality and value.

CREATE YOUR DREAM OUTDOOR LIVING SPACE

Envision your Equinox Louvered Roof system complementing your home and lifestyle. Applications include patios, decks, spas, swimming pools, outdoor kitchens, BBQ areas, gazebos, courtyards, entryways or anywhere that sun, light and weather control is desired. To start planning your project, visit EquinoxRoof.com. View our gallery and visualizer for more inspiration.

Colors and finishes:

Available in white, sandstone and clay the Equinox Louvered Roof system enhances outdoor living areas. Virtually any material and finish can be applied to the Equinox Louvered Roof frame to achieve your desired look and feel.

Personalize with design options:

Customized columns and beams provide options that complement your home's style. Round, tapered, square, and fluted are just a few possibilities.

Consider a designer fan or a recessed lighting system. Fans and lights can both be wired into your Equinox Louvered Roof for the total experience.

Radiant heat and misting systems can easily be integrated into your patio system to provide comfort to your guests during warm days and cool nights
